The first edition of the **International Conference on Communication, Computing, Smart Materials and Devices** is scheduled to be held during 19<sup>th</sup> and 20<sup>th</sup> December, 2024. The theme of the conference is **“Facilitating Future Technological Growth”**

**ICCCSMD 2024 (technically co-sponsored by IEEE Madras Section)**, requests contributions in the following technological areas, but not limited to them, on all facets of communication, computing, and smart materials and devices and their applications in the fields of mechanical, electrical, electronics, telecommunication, artificial intelligence, data science, computer, and information technology.

This conference aims to bring together experts from around the world to deliver papers and spark conversations about current advancements and trends in communication, computing, smart materials and devices. The conference will include keynote speeches, thought-provoking talks, and a variety of presentations on the most recent research activity.

Accepted papers will be submitted for inclusion into IEEE Xplore subject to meeting IEEE Xplore's scope and quality requirements.
